

AMiKO CMCA Peel – Protocol of Use

Treatment Procedure

1. Cleanse:
2. Gently cleanse the skin using Auric Cleansing and Hydrating Mousse to remove all impurities and prepare the treatment area.
3. Application:
4. Apply AMiKO CMCA Peel evenly to the treatment area according to the following guidelines:
 - Face: 2 ml
 - Neck: 1 ml
 - Décolleté: 2 ml
 - a. Hands: 1 ml per hand
 - Body: 1 ml per palm-sized area
5. Exposure Time:
 - Face and localized areas: Leave the peel on for 2–3 minutes.
 - Body applications: Leave on for 5–7 minutes.
6. Neutralization:
7. Important: Water does not neutralize the chemical compound — it only helps to remove it from the skin.
 - Remove the peel thoroughly with water.
8. Post-Treatment Care:
 - Apply Auric Day Cream to soothe and hydrate the skin.
 - Finish with Auric SPF for complete protection.

Recommended Treatment Course

- A series of 4–6 sessions is recommended, spaced every 10–14 days for optimal results.
- The product is suitable for all skin types and most skin concerns.

Contraindications

Do not use in cases of:

- Allergy to salicylic acid, aspirin, or azelaic acid (derived from barley, rye, or wheat).
- Allergy or sensitivity to any component of the peel formulation.

Important Notes

- The manufacturer does not accept responsibility for any adverse reactions or complications that occur as a result of incorrect post-care or the use of non-recommended products.
- Only the Auric post-care range should be used for a minimum of 10 days following the peel to ensure safety and effectiveness.

Pre-Peel Recommendations

Avoid the following for at least 10 days before treatment:

- Retinol or Retinoids
- AHA and BHA acids
- Antibiotics
- Tretinoin (must be discontinued for at least 2 months before treatment)
- Niacinamide
- Vitamin C
- Any other active ingredients or treatments that may compromise the skin barrier
