

AMiKO ROSE
ADVANCED SKIN STIMULATOR

A next generation cellular stimulator . Recommended for advanced revitalisation, bioremodeling, pigmentation treatment, scars treatment as well as restoration of skin firmness lost with age.

Treatment areas:

Under eye - 0.5 ml per eye treatment – undereye, temple and upper eyelid (just below the brow)

Face, neck - Face 2 ml of product per procedure, neck 1 ml of product per procedure

Decollete – 2-3 ml of the product per procedure

Body - (skin flaccidity, stretchmarks – 1 ml equals palm size of the body area)

Intimate area 1 ml of the product per treatment

AMiKO Rose unique formulation contains the following components:

- Hyaluronic acid high molecular weight
- Trehalose enhances and prolongs moisturising effect by stabilising hyaluronic acid structures and provides long term water retention in the deep layers of the skin.
- Succinic acid - Anti-Inflammatory, Succinic acid has been shown to reduce inflammation, making it useful for calming irritated skin and conditions such as acne and rosacea great in pigmentation and melasma treatment.

Succinic acid can help enhance the skin's natural barrier function, which is crucial for maintaining hydration and protecting against environmental stressors.

***Moisturizing*:** Succinic acid can help retain moisture in the skin, contributing to a more hydrated and plump appearance.

***Antioxidant Effects*:** It has antioxidant properties, which can protect the skin from oxidative stress caused by free radicals, potentially reducing signs of aging.

Succinic acid is generally considered safe and well-tolerated by various skin types, including sensitive skin.

- Glycine, proline, and hydroxyproline - three critical amino acids that play essential roles in the structure and function of collagen.
- Niacinamide, also known as vitamin B3, is a multifunctional ingredient celebrated in skincare for its numerous benefits.

- Pyridoxine, also known as vitamin B6- Pyridoxine helps maintain skin hydration, it has anti-inflammatory properties that can help soothe irritated skin, making it beneficial for conditions like acne, rosacea, and eczema.
- Vitamin B6 is involved in protein metabolism and is essential for the synthesis of amino acids, which are crucial for skin repair and regeneration. This aids in healing wounds and reducing the appearance of scars.
- Panthenol- provitamin B5; powerful humectant, protects the skin against moisture loss, has anti-inflammatory effect, provides relief for conditions such as rosacea, eczema, acne and melasma.
- Arginine plays an important part in collagen synthesis, contributing to firmer and more youthful -looking skin. Arginine is a precursor of nitric-oxide, so improves angiogenesis and circulation in tissues, which leads to better oxygen flow and nutrition delivery to the skin, promoting a healthy complexion.
- Centella Asiatica; s renowned for its ability to promote wound healing. It stimulates collagen production, which is essential for skin repair, making it effective for healing minor cuts, scrapes, and scars. Centella Asiatica can enhance skin elasticity and firmness, helping to reduce the appearance of fine lines and wrinkles.

INCI

Water (Aqua), Trehalose, Succinic Acid, Sodium Hydroxide, Sodium Hyaluronate, Pyridoxine HCL , Proline, Hydroxyproline , Phenoxyethanol , Ethylhexylglycerin , Niacinamide ,Panthenol Glycine, Centella Asiatica Leaf Vesicles (Exosomes), Glycerin ,Pentylene Glycol , Arginine

Volume 1x 6 ml

Protocol of use

4-6 sessions every 10-14 days

SCARS TREATMENT- one treatment every 2 months

Microneedling

1st pass 0.25 mm – 0.5 mm – just to obtain erythema , second pass – up to pin point bleeding
