

AMiKO Melasma & Pigmentation System

Protocol

Perform a patch test 4-7 days before the treatment

Contraindications. DO NOT USE in case of allergy to salicylic acid , aspirin, azelaic acid or allergy to any other peel component.

SESSION ONE:

Cleanse the skin using Auric mousse

Apply pro gel leave on the skin for 3 to 5 minutes remove with water.

Apply 2 mL of AMiKO CMCA peel

Leave on the skin for 3 to 5 minutes.

Apply a millilitre of neutralising gel live on the skin for up to 3 minutes.

Client may feel a stinging sensation which is natural. SPH of the skin is rising suddenly to two neutral levels.

Remove with water

Dry the skin.

Apply 2 mL of AMiKO Rose

Micro needle on the depth 0.25 mm.

Leave the product on the skin to absorb.

Apply post treatment cream

Apply SPF 50.

* It is necessary for the client to use Auric Serum and Auric Day cream in the morning and Auric Night cream in the evening for the entire duration of therapy.

Full full protocol requires 4 to 6 sessions performed every two weeks.

BEFORE & AFTER :

Results 11 Days post first treatment

One AMiKO peel
