

AMiKO CMCA Peel & MICRONEEDLING Protocol:

Patch test to be performed 4-7 days prior to the treatment.

Acne scars treatment, Large open pores, loss of elasticity, anti- ageing treatment (NOT SUITABLE FOR DRY, DEHYDRATED SKIN)

First session of AMiKO CMCA PEEL should be topical only (perform a patch test 4-7 days prior to the treatment)- microneedling can be introduced in the following session if the client's skin suitability for such treatment had been confirmed.

PROTOCOL OF USE:

Cleanse the skin using Auric cleansing and hydrating mousse
Apply AMiKO re peel gel – application time 3-5 min
NEUTRALISE –using Amiko CMCA Peel neutralising cooling gel
Remove with water
Apply 1 ml of AMiKO ROSE SKIN BOOSTER
Microneedle the skin - First pass 0.25-0.5 mm
Second pass until pin point bleeding
For deeper lines and wrinkles we recommend using stamps method

Apply AURIC day/ post treatment cream
Apply Auric SPF

Recommended number of sessions: 4-6 every 10-14 days

Product is appropriate for all skin types and skin concerns Contraindications.

DO NOT PERFORM MICRONEEDLING ON A DEHYDRATED SKIN
DO NOT USE in case of allergy to salicylic acid, aspirin, azelaic acid or allergy to any other peel component.

AURIC range should be used post peel for a minimum 7 days.

Pre peel avoid for min 10 days: Retinol , AHA , BHA acids, antibiotics, tretinoin – 2 months min, niacinamide , vit c or any other ingredients which can lead to compromised skin barrier. Microneedling protocol should not be used as the first treatment for new client/ patient. Start AMiKO CMCA TREATMENT WITH TOPICAL APPLICATION
